

9:00 AM - 2:00 PM	ANPC EMCR pre-conference workshop	Workshop Australian National Phenome Centre
3:15 PM - 4:00 PM	Conference Registration	Registration The Mezzanine
4:00 PM - 4:30 PM	Opening & Welcome to Country	Opening Riverside Ballroom
4:30 PM - 5:30 PM	Opening Plenary - Prof. Kerry-Anne Rye	Plenary Riverside Ballroom
4:30 PM	Lipidomics and Lipid Function—Measuring Lipids is no Longer Enough Prof. Kerry-Anne Rye	
5:30 PM - 6:00 PM	ECR Rapid-Fire Talks	Session Riverside Ballroom
5:30 PM	Mass spectrometry-based plasma lipidomics identifies PUFA-related signatures associated with future stroke risk in older men Jaya Ajay Singh	
5:34 PM	Circulating fatty acid oxidation intermediates predict survival in ageing men: a prospective metabolomics study Manthan Sharma	
5:38 PM	Investigating Microglial Lipid Metabolism in Response to Amyloid-Beta: Implications for Alzheimer's Disease Ayesha Templeman	
5:42 PM	The lipid landscape behind harmful extracellular vesicle release in vascular aging Elizaveta (Eliza) James	
5:46 PM	Towards Quantitative FTIR-Based Plasma Lipid Profiling: A Design of Experiments Approach to Optimising Lipid Extraction Satnam Kaur	
5:50 PM	Integrative Modelling of Lipidomics and Lipoproteomics: A Comparative Approach for BMI Prediction Novia Minaee	
5:54 PM	A Systematic Evaluation of Extraction and 4D-MS Parameters for Comprehensive Human Blood Lipidomics Nurul Saadah Ahmad	
6:00 PM - 8:00 PM	Welcome Reception	Social Silver Room

8:00 AM - 8:45 AM	Registration	Registration The Mezzanine
8:45 AM - 9:30 AM	Keynote Prof. Hiroshi Tsugawa	Keynote Riverside Ballroom
8:45 AM	Toward agent-assisted lipidomics: extending the MS-DIAL ecosystem from laboratory-scale lipidomics to reproducible public data reanalysis Prof. Hiroshi Tsugawa	
9:30 AM - 10:30 AM	AI, Computational Tools & Data Standards for Lipidomics 1	Session Riverside Ballroom
9:30 AM	LipiRich: An Open-Source, Browser-Based Application for Normalisation, Statistical Analysis, and Pathway Enrichment using Untargeted Lipidomics Data Sarah Hancock	
9:45 AM	An atlas of imputed plasma lipidomic biomarkers for health and disease in 197,840 individuals from the UK Biobank Changyu Yi	
10:00 AM	A pilot study of AI assisted LC-MS lipid structure identification for under represented lipid categories Zhixu Ni	
10:15 AM	A high-throughput LC-MS and machine learning framework for population-scale plasma lipidomics Amy W. Liang	
10:30 AM - 11:15 AM	Morning Tea	Break Silver Room
11:15 AM - 12:15 PM	Lipids in Health and Disease 1	Session Riverside Ballroom
11:15 AM	Melanoma cells remodel their lipidome yet maintain membrane biophysical properties during drug adaptation Aurelie Benfield	
11:27 AM	ER translocon gating governs metabolic allocation through selective lipid routing Carl Mousley	
11:39 AM	Co-fractionation multiomics for mapping the composition of native membrane lipid-protein complex interactomes Liuyu Peng	
11:51 AM	Effects of Reactive Oxygen Species on Liposomal Biomimetics of the Mitochondrial Membranes: A Biophysical Approach Susana Mesen-Porras	
12:03 PM	Characterization of a lipid droplet-associated microalgal protein as a novel phosphatidic acid biosensor Bilge Ercan	
12:15 PM - 1:45 PM	Lunch & Poster Session	Lunch Silver Room
POSTER 9	High-throughput regioisomer resolved analysis of phosphoinositides Kevin Huynh	
12:15 PM	Towards Quantitative FTIR-Based Plasma Lipid Profiling: A Design of Experiments Approach to Optimising Lipid Extraction Satnam Kaur	
12:15 PM	Simultaneous quantitative and qualitative analysis of oxylipins using high resolution mass spectrometry with CID and EAD based fragmentation Dr. Thusitha Rupasinghe	
POSTER 17	Quantification and Localisation of New Brain Lipid Synthesis Using Deuterium Oxide and High Resolution Mass Spectrometry Catherine Zhang	
12:15 PM	Agilent sponsor Agilent sponsor	
12:15 PM	Circulating fatty acid oxidation intermediates predict survival in ageing men: a prospective metabolomics study Manthan Sharma	
POSTER 10	Clinical Translation of Targeted Lipidomics: Validation of BREASTEST plus v2 for Early Breast Cancer Detection Mark David	
12:15 PM	Integrative Modelling of Lipidomics and Lipoproteomics: A Comparative Approach for BMI Prediction Novia Minaee	
12:15 PM	Bruker sponsor Bruker sponsor	
12:15 PM	Mass spectrometry-based plasma lipidomics identifies PUFA-related signatures associated with future stroke risk in older men Jaya Ajay Singh	
POSTER 13	Lipidomic Characterisation of Human Monocytes, Macrophages and Monocyte-Derived Microglia-Like Cells Matilda van Buuren-Milne	
12:15 PM	Trajan sponsor Trajan sponsor	
POSTER 7	Serum lipidomics reveals class-specific lipid remodelling and altered acyl chain composition in Parkinson's disease Jack Price	

12:15 PM	Marten Snel Marten Snel	
POSTER 24	Profiling Short-Chain Acylcarnitines in Human Peripheral Blood Mononuclear Cells Thy Duong	
POSTER 27	Root-shoot lipidome interactions in Medicago truncatula after drought stress Alastair Ross	
POSTER 28	Lipid remodelling defines divergent cancer immunotherapy outcomes Nicola Principe	
POSTER 30	Pre-Analytical Matrix Considerations in Sepsis Lipidomics: A Systematic Review Comparing Serum and Plasma Profiling in Bacterial Infections Nurul Saadah	
POSTER 22	Characterising Coffee Lipids from Green Bean to Brew: A Lipidomic Approach Jermaine Marie Ann Fabella	
1:45 PM - 2:30 PM	Keynote - A/Prof. Hyungwon Choi	Keynote Riverside Ballroom
1:45 PM	Scalable workflows for population-scale lipidomics in cardiometabolic diseases A/Prof. Hyungwon Choi	
2:30 PM - 3:15 PM	Clinical Lipidomics: From Pre-analytics to Cohort Studies 1	Session Riverside Ballroom
2:30 PM	Comprehensive, multi-ancestry lipidomic GWAS reveals molecular pathways linking the human lipidome to cardiometabolic, neurodegenerative, and cancer risk Corey Giles	
2:45 PM	Lipoprotein and lipid perturbations induced by acute and chronic inflammation Samantha Lodge	
3:15 PM - 3:50 PM	Afternoon Tea	Break Silver Room
3:50 PM - 4:20 PM	Platinum Sponsor Invited Talk: SCIEX	Session Riverside Ballroom
3:50 PM	Large panel of lipid identification and quantitation using ZT Scan DIA analysis Dr. Thusitha Rupasinghe	
4:20 PM - 5:00 PM	Clinical Lipidomics: From Pre-analytics to Cohort Studies 2	Session Riverside Ballroom
4:22 PM	When recovery differs: Sex-based lipidomic changes after childhood burn injury Monique J Ryan	
4:34 PM	A lipidomic risk score improves cardiovascular risk assessment in statin treatment across large cohorts Jingqin Wu	
4:46 PM	Identification of novel lipidomic biomarkers in first trimester maternal serum for the screening of aneuploidy specifically trisomy 21. Khoa Lam	
5:15 PM - 6:00 PM	Australian Lipid Society AGM	AGM Riverside Ballroom

8:00 AM - 8:45 AM	Registration	Registration The Mezzanine
8:45 AM - 9:30 AM	Keynote - Prof. Gerald Watts	Keynote Riverside Ballroom
8:45 AM	Keynote 3 Prof. Gerald Watts	
9:30 AM - 10:30 AM	Lipids in Health and Disease 2	Session Riverside Ballroom
9:30 AM	Defining the potential of alkylglycerol supplementation for treating diverse metabolic disorders Richard G. Lee	
9:45 AM	Non-Canonical Sphingolipid Remodeling in Adipose Tissue Tracks Insulin Resistance and Type 2 Diabetes Remission Elin Chorell	
10:00 AM	Targeting Endothelial Plasma Membrane Cholesterol to Mitigate Atherogenesis Jacob (Yanfei) Qi	
10:15 AM	Integrative lipidomic analysis across six cohorts reveals biological pathways underlying cardiovascular disease risk Tingting Wang	
10:30 AM - 11:15 AM	Morning Tea	Break Silver Room
11:15 AM - 12:15 PM	Microbial & Plant Lipids in Health and Biotechnology 1	Session Riverside Ballroom
11:15 AM	Free fatty acid consumption, metabolism and biosynthesis in honeybees Sam Hodgkinson	
11:27 AM	Untargeted lipidomics and proteomics to expand molecular coverage of human milk Alexandra George	
11:39 AM	High marbled Wagyu beef vs. low marbled Water buffalo beef – are there differences in the lipidome of muscle between both breeds? Dirk Dannenberger	
11:51 AM	Whole-grain rye feeding drives tissue-specific host-metabolic and microbial responses beyond conventional clinical endpoints Ambrin Farizah Babu	
12:03 PM	Interactive effects of lactation stage, dietary supplementation, and maternal metabolic state on human milk lipidome Baoru Yang	
12:15 PM - 1:45 PM	Lunch & Poster Session	Lunch Silver Room
POSTER 5	Development of a targeted lipid plasma method with a propanol free mobile phase Lee Thomasson (Trenigove's paper)	
POSTER 14	MStargetR: A reproducible, auditable, and containerised R workflow for end-to-end targeted mass spectrometry data processing Harrison Szemray	
POSTER 11	Development of a metabolomic screening algorithm for the early detection of genetic disorders using newborn dried bloodspots: The NewbornsInSA Study Tomas Rozek	
12:15 PM	NDF sponsor NDF sponsor	
12:15 PM	Investigating Microglial Lipid Metabolism in Response to Amyloid-Beta: Implications for Alzheimer's Disease Ayesha Templeman	
POSTER 6	Lipidomic analysis reveals a distinct PUFA-rich profile in endometriosis Sarah W. Walsh	
POSTER 16	Lipidome-wide analyses provide novel insights into the relationship between lipid metabolism, type 2 diabetes and prediabetes risk. Habtamu Bedimo Beyene	
12:15 PM	Marten Snel Marten Snel	
12:15 PM	The lipid landscape behind harmful extracellular vesicle release in vascular aging Elizaveta (Eliza) James	
12:15 PM	A Systematic Evaluation of Extraction and 4D-MS Parameters for Comprehensive Human Blood Lipidomics Nurul Saadah Ahmad	
POSTER 12	Targeting lipid and cholesterol metabolism in endometrial cancer Claudia E. Tiplady	
12:15 PM	Thermo sponsor Thermo sponsor	
POSTER 25	Sex-Specific Lipid Signatures Associated with Paracetamol Exposure Shaimaa Khandaker	

POSTER 1	Optimization and Clinical Validation of a Cell-Free Cholesterol Efflux Capacity Assay Using Immobilized Liposomes-bound Magnetic Beads in Statin-Treated Patients Wanida Laiwattanapaisal	
POSTER 26	Acetonitrile-Derived Acetamidinium Adduct Formation Reduces Signal Intensity in LC–MS Lipidomics Nat Mellett	
POSTER 23	Enhancing the biodistribution of artificial lipid droplets as a novel lipid particle delivery system in vivo Ebony Monson	
POSTER 3	Circular Bioprocessing: A study of spent media and biomass recycling with Umbelopsis isabellina Jasmeet Kaur Khanijou	
1:45 PM - 2:30 PM	Keynote - Dr. Laura Bindila	Keynote Riverside Ballroom
1:45 PM	Keynote 4 Dr. Laura Bindila	
2:30 PM - 3:15 PM	Advancements in Lipidomic Technologies 1	Session Riverside Ballroom
2:30 PM	Multi-Region Brain Lipidomics in Alzheimer’s Disease Neuropathology Kevin Huynh	
2:45 PM	Analysis of Total Fatty Acids by SFC/MS: Separation of Omega-3 and Omega-6, Branched and Hydroxy Fatty Acids Michaela Chocholouskova	
3:00 PM	In vivo stable isotope labelling and mass spectrometry reveals that the APOE4 is a loss of function allele for brain lipid turnover Yushan Cai	
3:15 PM - 4:00 PM	Afternoon Tea	Break Silver Room
4:00 PM - 5:00 PM	Advancements in Lipidomic Technologies 2	Session Riverside Ballroom
4:00 PM	Rapid, High-Throughput Lipid Class Separation Using Supercritical Fluid Chromatography-Mass Spectrometry (SFC-MS) Rangika Perera	
4:12 PM	A novel targeted reversed-phase LC-QqQ-MS/MS methodology reveals that ER translocon gating governs storage and membrane lipid partitioning in Saccharomyces cerevisiae Lee Thomasson	
4:24 PM	Investigating the Diabetic Lipidome: A DBS-Based High-Resolution Mass Spectrometry Approach Jayden Lee Roberts	
4:36 PM	A Comprehensive Targeted Lipidomics Workflow for Characterisation of Multiple Biological Matrices Dana Hicks	
4:48 PM	Lipidomic investigation of atherosclerotic plaque in S. pneumoniae inoculated ApoE-/- mice Kanishka Senthilvel	
7:00 PM - 10:00 PM	Conference Dinner	Dinner Reel Kitchen

8:00 AM - 8:45 AM	Registration	Registration The Mezzanine
8:45 AM - 9:30 AM	Keynote - A/Prof. Shane Ellis	Keynote Riverside Ballroom
8:45 AM	Keynote 5 A/Prof. Shane Ellis	
9:30 AM - 10:30 AM	Lipid Imaging & Single-Cell Lipidomics 1	Session Riverside Ballroom
9:30 AM	Lipidomic profiling of cancer cell membranes reveals signatures for therapeutic targeting POSTER 15 Sonia Henriques	
9:45 AM	Assigning sn-position in glycerophospholipids by hyphenation of reversed-phase chromatography and collision-/ozone-induced dissociation mass spectrometry Qiyu Liu	
10:00 AM	Spatial Lipidomics Reveals Lipid Signatures Associated with Plaque Instability and Rupture in Medial-Derived Carotid Atherosclerotic Plaques Hanane Belhouli-Fakir	
10:15 AM	A tale of two glycerols: Uncovering the structural diversity of phosphatidylglycerol congeners through multi-dimensional analysis Therese M. Fulloon	
10:30 AM - 11:15 AM	Morning Tea	Break Silver Room
11:15 AM - 12:25 PM	Lipid Particles and Delivery Systems 1	Session Riverside Ballroom
11:15 AM	RNA Capture and Retention in Lyotropic Lipid Mesophases Dev Chauhan	
11:27 AM	Targeted lipid nanoparticle delivery of plasmalogen precursors as a therapeutic strategy to restore plasmalogen levels and enhance cellular resistance to stress-mediated injury Pukjara Jena Rungreang	
11:39 AM	Developing Potent and Selective Ceramide Synthase 6 Inhibitors for the Treatment of Metabolic Dysfunction in the Liver Patricia Schwarzkopf	
11:51 AM	Inhibition of lysosomal beta glucocerebrosidase promotes de novo synthesis in a neuronal model Jennifer Saville	
12:03 PM	Acetaminophen-Mediated Alteration of Cardiolipin distribution in Rat Organ Tissue HAY-YAN WANG	
12:15 PM	COMBINATORIAL Chemistry for QUANTITATIVE Standards (CONQUEST): Quantitative Phospholipid Standards via Randomized De Novo Synthesis Yanning Li	
12:30 PM - 2:00 PM	Closing Lunch	Lunch Sen5es Restaurant and Wine Bar
2:00 PM - 3:00 PM	Closing Plenary - Prof. Aleksandra Filipovska	Plenary Riverside Ballroom
2:00 PM	Keynote 6 Prof. Aleksandra Filipovska	
3:00 PM - 3:30 PM	Closing Address Awards & Prizes	Closing Riverside Ballroom
